Professional: Remote Pair-Programming, Teamwork, Mentoring.

EXPERIENCE

HIGHLIGHTED PERSONAL PROJECTS   Remote
Freelance Full Stack Web Developer   "November 2021 – Present"

Car rental. A website that allows you to view a variety of cars and book them. Users can see all models and model details and rent a car. Admin can add and delete cars. It uses React as the front-end and Ruby on Rails as the back-end.
[View Project](#) | [Live Demo](#)
- Built with: React, Ruby on Rails, and Tailwind.

Budget-Manager. Mobile web app where users can manage their budget and have a list of transactions associated with a category so they can see how much money they spent and on what.
[View Project](#) | [Live Demo](#)
- Built with: Ruby on Rails, PostgreSQL, Rspec.

Stock Metrics. This app displays a list of popular stock market prices. Users can click on a selected company to see in detail economic activity. The app consumes the Financial Modeling Prep API.

- Built with: React, Redux, Jest.

EMBASSY OF REPUBLIC OF ARMENIA TO GEORGIA   Tbilisi, Georgia
Political analyst   "August 1998 – February 2021"
- Analyzed more than 25 political articles every month. Critical thinking skills were in place for every project.
- Certificate of Appreciation from the Ambassador of Armenia to Georgia for analytical articles.

EDUCATION

MICROVERSE   "November 2021 – July 2022"
Remote Full Stack Web Development Program, Full Time
- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developed skills in remote pair-programming using GitHub, industry-standard git-flow, and daily standups to communicate and collaborate with international remote developers.

GEORGIAN TECHNICAL UNIVERSITY
Master Degree in Electrical Engineering   "September 1976 – October 1981"
- Thesis project: "Investigation of busbar operation methods of a 35-kilowatt substation using methods of mathematical statistics".
